

Time and Temper Saver !

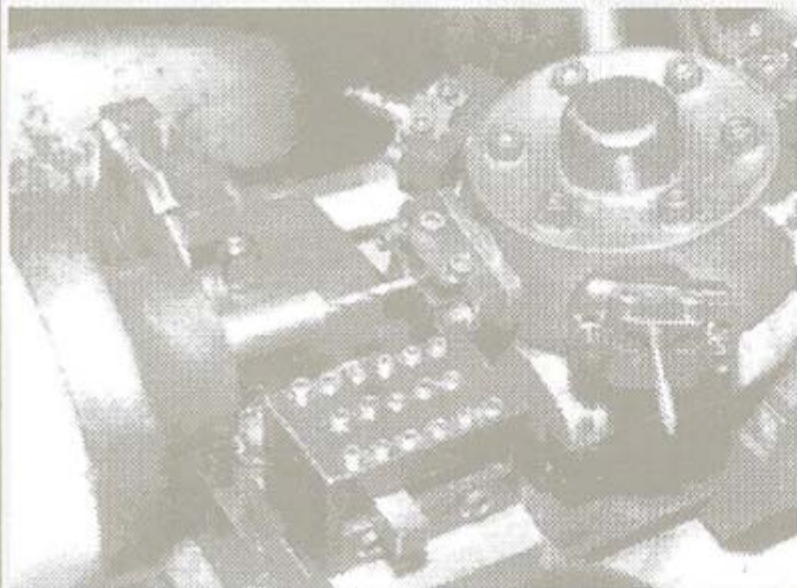

The Brookfield Tool Holder is always at hand for fast, accurate set-ups. Just clamp the tool - float to center - and tighten.

Holds drills, counter bores, reamers and other tools axially true.

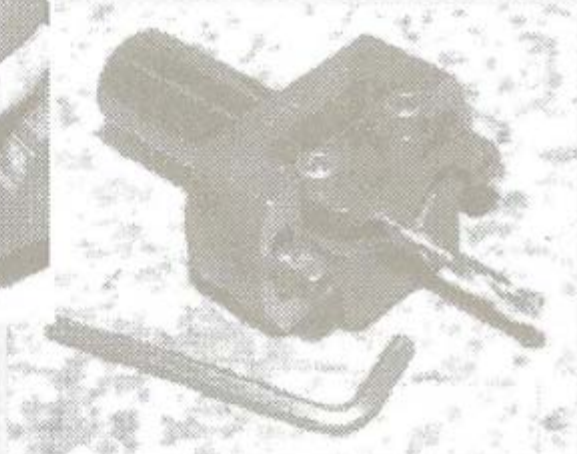

Saves the aggravation of hunting the right size bushing or collet. The Brookfield Tool Holder is always the right size.

One typical tool holder size holds shanks from 1/16" to 3/4" dia. Five sizes cover a range from 1/16" to 1-1/2" dia.

**ONE BROOKFIELD
TOOL HOLDER
IS WORTH
1000 BUSHINGS**

Brookfield Tool Holders can be used in all types of automatic, manual and CNC machines.
